Rave reviews from previous attendees:

You and the class are amazing. Your attention to detail, understanding of both business and human nature, unflagging enthusiasm and support.

I took your class a few months ago and wanted to share with you that I recently began working with ... I used your cover letter example to tweak my cover letter for this job and it was successful in getting me in the door, so thank you!

I now feel current and prepared for today's job market with techniques, strategies & a winning advantage based on what I learned from Mauri. The content was delivered in a well thought out manner but with the hard hitting facts a job candidate needs.

I had applied for a position through Craigslist. A couple of weeks went by and I had not received a phone call. The day after your second class (Job Search Strategies), I followed one of your ideas. Within 30 minutes I received a phone call from a representative of their HR department.

Very specific tools were provided and presenter was very approachable so it was easy to get all questions answered.
